

New General Manager at Habonim

As of July 2009, Mr. Niv Shimron has joined Habonim as its new CEO / President replacing Mr. Uri Oliner.

Niv brings to Habonim nearly 20 years of experience leading successful Israeli industrial companies including Nilit, Meprolight, and most recently served as CEO of Terraflex. Niv also served in executive roles in the Israeli Defense Forces, and holds an MBA

and a degree in Industrial Engineering. We would like to take this opportunity to welcome Niv to the company and wish him success in his new position.

New Product Overview is now available

This A3 new catalogue is featuring Habonim main line of products at a glance. Please contact Habonim Marketing department for hard copies.

3 Way Steam Jacket Valve

This 3 way steam jacket valve was designed to address space problems at Elite Chocolate Factory, enabling the customer to replace 2 valves, thus saving space and reducing leakage threat. It's integrated steam jacket prevents the media from hardening.

The Frequently Asked Questions section is a new addition to our updates. Here we intend to share with our customers, engineering information that can be useful.
